M-Play

Martin M-Play uses M-PC as software that will run on a Windows PC and can be downloaded here.

Fully compatible with all M-Series consoles and M-PC software, Martin M-Touch, Martin M-Play is a plug-and-play solution with an innovative control surface like no other lighting console.

Featuring a truly innovative control surface with 12 touch faders that let you control playbacks, while 48 velocity-controlled pads let you access playbacks and any function key. Martin M-Play comes with one DMX 512 universe for direct control of any compatible DMX device.

48 pads and 12 faders with direct access to playbacks

Rugged aluminum design for durability

DMX port expandable to 65,000 channels

GALLERY
